- In the event of a transaction being partially or fully cancelled/disputed, the EMI facility availed on it will continue, unless a pre-closure request is made by the customer. Once the Merchant EMI is pre-closed, for any reason, all outstanding including but not limited to the principal outstanding and the interest for the actual number of days till closure i.e., from the last billing date till the date of closure, shall be debited to the Credit Card account.
- Cases where the bank converts the original transaction into Merchant EMI subsequent to the original transaction, processing of such EMI request shall take up to 8 business days. Citi reserves the right to accept or reject EMI request.

- The first EMI will be billed on the first monthly billing date of the credit card that falls after the date of conversion of the transaction to EMI as per the Merchant EMI plan. For eg. - All billing of EMIs in the subsequent months shall be on the billing date of the Credit Card for that month.

If the minimum amount due is unpaid, Charges shall be levied on such outstandings (including but not limited to the EMI as above), as communicated in the Credit Card Most Important Terms & Conditions (MITC). The Credit Limit on the Credit Card shall be blocked to the extent of the purchase transaction amount. The Credit Limit will be released as and when the EMI is billed and paid for in subsequent months

Interest Calculation Methodology on EMI products

- Interest rate communicated at the time of initiating the transaction shall be levied on monthly reducing balance.
- The interest component for the first installment shall be computed from Merchant EMI booking date to the first billing date for the Credit Card. For all subsequent installments, the interest shall be computed on monthly rests and the installment shall be debited to the Credit Card on the date of each monthly bill.
- As a result of the computation above, it is possible that the first EMI may be for an amount lesser than the standard EMI amount communicated to you, depending on the date of purchase(s).
- The interest component of the EMI is calculated only on the unpaid balance of your loan as illustrated below:
For first installment – $\text{Principal Outstanding} * \text{ROI}\% * (\text{number of days applicable} / 365 \text{ or } 366 \text{ days})$, where 'number of days applicable' will be actual days from the EMI booking date to the first billing date of the Credit Card.
For all subsequent installments – $\text{Principal Outstanding} * \text{ROI}\% * 1/12$.
[ROI = Rate of Interest as communicated at the time of availing of the product]
- Citi reserves the right to modify all interest from time to time, at its sole discretion with prior notice or in the event of any changes in the interest rate made by the Reserve Bank of India (RBI)

Finance Charges on Card balances

If the amount paid towards dues on the Credit Card is less than the Total Amount Due, Finance Charges shall be levied on such outstandings (including but not limited to the EMI as above), as per the interest rate applicable and communicated in the Credit Card Most Important Terms & Conditions (MITC), which currently is 3.75% per month (i.e. 45% annualized). The applicable interest rate shall be mentioned in the monthly statement. Until the EMI facility is booked, Finance charges on card balances as mentioned above will be applicable.

Prepayment process and related charges

The Merchant EMI product(s) can be pre-closed by calling 24-Hour CitiPhone. There are no preclosure charges for Merchant EMI. Any payment made into the Credit Card Account over and above the EMI shall not be deemed to be payment towards the amount availed under Merchant EMI and shall not be deemed as closure of the Merchant EMI. Citi reserves the right to revise the pre-payment charges at its discretion, with prior notice via email/letter and such revised charges shall be binding on the Cardmember. Once the Merchant EMI is pre-closed, for any reason, all outstanding including but not limited to the principal outstanding and the interest on the loan for the actual number of days till closure (i.e., from the last billing date till the date of closure) shall be debited to the Credit Card account. As a part of the Credit Card Account, this balance will now attract all the charges including finance charges at the credit card rate of interest which currently is 3.75% per month (i.e. 45% annualized). The applicable interest rate shall be mentioned in the monthly statement.

Pre-closure due to non-payment

In the event the credit card remains past due for more than 180 days (due to non-payment of minimum amount dues), the Merchant EMI shall be pre-closed. Following this, the principal outstanding, the interest on the loan for the days from the last EMI billing till closure, shall be debited to the Credit Card account and appear in the monthly statement. Citi shall be entitled to demand immediate repayment of such outstanding amounts.

Merchant EMIs on credit cards blocked/ closed by the bank
