b. Finance Charges (Interest Charges)

For Citibank cards

- Interest will be charged if you (the word 'you' refers to the Cardmember) do not pay back the previous bill in full by the payment due date (as per credit card statement) and also on all Cash Advances. Interest will be charged from the date of transaction until the date of full settlement.
- The interest rate on your card is dynamic and is subject to the bank's review every 6 months, based on various cardmember performance parameters, such as spend (purchases & cash withdrawals) and utilization trends on the card(s), repayment patterns, including default (non-receipt of payment) etc., and on credit bureau feedback related to other lending products used by the cardmember.
The rate of interest can vary between 3.10% per month (i.e. 37.20% annualized) and 3.40% per month (i.e. 40.80% annualized), provided the account continues to be in good standing and all credit card bills are paid on time (at least the Minimum Amount Due). In case of default, i.e., if the card member does not pay the Minimum Amount Due as per the last credit card statement by the Payment Due Date, the interest rate can increase up to 3.50% per month (i.e. 42.00% annualized). The default interest rate will apply till the time the account is regularized plus 3 months of performance review period.
- If you avail of more than one dynamic interest rate credit card, i.e. any card other than Ultima, then interest rate applicable on the new card will be same as the existing card, irrespective of the type of card/class that you choose as your 2nd

card. If you are using the revolving credit facility, the closing balance as per your previous statement will accrue interest till the date of full payment of the total amount due. All charges are dynamic and are subject to change based on Citibank's periodic review.

Illustrative Example for Interest Calculation:

Assuming that you have only partially paid your February outstanding, and your statement is generated on 17th March for Rs. 5000. You make a payment of Rs 2000 on 25th March. And you make a purchase for Rs 1000 on 30th March. You make no further payment on your Card till 17th April. Assuming an interest rate of 39.00% per annum in this example, interest will be levied as follows:

On the balance of Rs 5000 (18th - 24th March) for 7 days: $(39.00) * (7/365) * 5000/100 = \text{Rs } 37.40$

On the balance of Rs 3000 (25th - 29th March) for 5 days: $(39.00) * (5/365) * 3000/100 = \text{Rs } 16.03$

On the balance of Rs 4000 (30th March - 17th April) for 19 days: $(39.00) * (19/365) * 4000/100 = \text{Rs } 81.21$

Total Interest charged = Rs 134.63

NOTE: *If you spend Rs.5000/- and you pay back exactly the minimum amount due every month, then it may result in repayment stretching over 6 years with consequent interest payment on the outstanding amount. Therefore, you should, whenever your cash flow allows pay back substantially more than your minimum due. This will also help open up your spending limit & improve your credit rating.*

Late Payment Charges will be applicable if the Minimum Amount Due on the card is unpaid after the Payment Due Date. Late payment charges are levied based on the current balance on your card on or within 3 days post the Payment Due Date. For illustrative example, refer to the Cardmember T&Cs available on www.citibank.com/india

c. Payment Due Date Calculation:

The Payment Due Date of the statement can vary between 17 and 23 days from the statement date depending on whether you normally make full payment or part payment. This period is on the discretion of the bank. For illustrative example, refer to Cardmember T&Cs available on www.citibank.com/india

Interest Free (Grace) Period

Interest free (grace) period depends on the date of the transaction and the statement date, as illustrated below.

Illustrative Example for Interest Free Credit Period Calculation:

For the example given in the PDD section, assuming that the payment due date falls on 8th Jul, and if the previous month's dues have been paid in full, the grace period would be:

1. For a purchase dated 16 May, interest free grace period is 16 May to 8 Jul = 53 days.
2. For a purchase dated 15 Jun, interest free grace period is 15 Jun to 8 Jul = 23 days.

If a part payment is made, there would be no interest free period and interest charges would be applicable (including on fresh purchases, if any) via an average daily balance method

Scenarios where interest-free (grace) period would NOT be applicable:

- a) If you have not paid the previous month's balance in full.
- b) If you have availed of cash from an ATM, interest is charged from the date of the transaction to the date of settlement of dues.

2. LIMITS

The Credit Limit and Cash Withdrawal Limit are communicated to you at the time of delivery of the Card and the available limits are indicated in the monthly statements.

Any unpaid Minimum Amount Due from previous statements will also be added to your current Minimum Amount Due to arrive at the Total **Minimum Amount Due**.
