b. Finance Charges

- i. Interest will be charged if the Card Member does not pay back the previous bill in full, by the payment due date (as per the card statement), and on cash advances from the day of advance. Interest is charged from the date of transaction until the date of full settlement of the dues.
- ii. If this is the first Citi credit card of the Card Member, with the exception of Citi Ultima, then the initial rate of interest on the card is 3.25% per month (i.e. 39.0% annualized). This rate is dynamic and is subject to periodic reviews by the bank on various Card Member performance parameters, such as spends, utilization on the card(s), repayment patterns, default (non-receipt of payment) and the credit bureau feedback related to lending products issued to the Card Member.
- iii. The interest rate can vary between 3.10% per month (i.e. 37.20% annualized) and 3.40% per month (i.e. 40.80% annualized), provided the account continues to be in good standing and all credit card bills are paid on time (at least the Minimum Amount Due). In case of default, i.e., if the Card Member does not pay the Minimum Amount Due as per the last credit card statement by the Payment Due Date, the interest rate can increase up to 3.50% per month (i.e. 42.00% annualized), and will apply till the time the account is regularized plus 3 months after that.
- iv. If the Card Member has more than one dynamic interest rate credit card, i.e. any card other than Ultima, then interest rate applicable on the new card(second card) will be same as the existing card (first card), irrespective of the type of card that the Card Member chooses as 2nd card.
- v. If the Card Member is using revolving credit facility, the closing balance as per the previous statement will accrue interest till the date of full payment of the total amount due, inclusive of any billed EMIs for loans on credit card.
- vi. In the event the credit card remains past due for more than 90 days (due to non-payment of minimum amount dues) or card is closed prior to all the installments being charged, the loan shall be closed/withdrawn and the principal outstanding, interest accrued till the date of such closure along with the pre-closure charges shall be debited to the Credit Card Account and appear in the subsequent

monthly statement. As a part of the Credit Card Account, this balance will now attract all the charges including finance charges at the credit card rate of interest which ranges between 3.10% per month (i.e 37.20% annualized) and 3.50% per month (i.e. 42% annualized).

Illustrative example for interest calculation:

Assuming, that a Card Member has paid only partially for the February outstanding, and the statement is generated on 17th March for ₹5000 (including interest from the date of transaction). Card Member makes a payment of ₹2000 on 25th March, and a purchase for ₹1000 on 30th March. No further payment is made on the card till 17th April (i.e. next statement date). Assuming an interest rate of 39.00% per annum on the Card, interest will be levied as follows:

Balance (₹)	Period	No. of days	Calculation	Interest (₹)
5000	18 – 24 Mar	7	$39.00 \times 7 / 365 \times 5000 / 100$	37.40
3000	25 – 29 Mar	5	$39.00 \times 5 / 365 \times 3000 / 100$	16.03
4000	30 Mar – 17 Apr	19	$39.00 \times 19 / 365 \times 4000 / 100$	81.21
Interest charged				134.64

NOTE: If a Card Member spends Rs.5000/- and pays back exactly the minimum amount due every month, then it may result in repayment stretching up to 9 years with consequent interest payment on the outstanding amount. Therefore, a Card Member should, whenever possible, pay back substantially more than the minimum due. This will also help to free up the spending limit and improve credit rating.

c. Late payment charges

Late payment charges will be applicable if the Minimum Amount Due on the card is unpaid for more than 3 days from the Payment Due Date. Late payment charges are levied based on the current balance on the card as on the date of levy of the charge.

d. Payment due date (PDD)

The payment due date can vary between 17 and 23 days from the statement date depending on the outstanding dues repayment history. This period is at the discretion of the Bank and may change. For example, if the statement period is from 16th May to 15th June, the payment due date can vary from 2nd July to 8th July.

e. Interest free (Grace) period

Interest free (grace) period depends on the date of the transaction and the statement date, as illustrated below:

Illustrative example for interest free credit period:

For the example given in the PDD section, assuming that the payment due date falls on 2nd July, and if the previous month's dues have been paid in full, the grace period would be:

- For a purchase dated 16 May, interest free grace period would be 16th May to 2nd July = 47 days.
- For a purchase dated 15th June, interest free grace period is 15th June to 2nd July = 17 days.

If a part payment is made, there would be no interest free period and interest charges would be applicable (including on fresh purchases, if any) using average daily balance method.

2. Limits

The Credit limit and Cash withdrawal limit are communicated to the Card Member at the time of delivery of the card and also in the monthly statements. 'Available Credit Limit' or 'available Cash Limit' is the limit up to which a Card Member can make purchases or withdraw cash from an ATM, respectively. The Cash limit is included within the overall Credit limit assigned.

3. Billing

Within a category, the payment will be adjusted in the following order: loan above card limit, other EMI plans, cash-withdrawals and retail purchases.
